Red Fighting Blue How Geography And Electoral Rules Polarize American Politics By David Hopkins

June 8th, 2020 – while it will not change their number of electoral college votes, population changes in three key presidential battleground states since the 2016 election could affect their influence on the outcome of the 2020 election. The continued population boom in Florida, with 29 electoral votes, all but assures its long-held status as a key swing state. Arizona, with 11 electoral votes, jumps onto the list of "blue and red states.

'ELECTORAL GEOGRAPHY
May 14th, 2020 – electoral geography is the analysis of the methods, the behavior, and the results of elections in the context of geographic space and using geographical techniques. Specifically, it is an examination of the dual interaction in which geographical traits of a territory affect the political decisions and the geographical structure of the election system affects electoral results.'
